are easy to care for. This is their chief merit, although at the same time they are durable, sanitary, and in all ways economical. Don't say otherwise to those who have had experience with them, lest they laugh at you, haply not audibly, possibly not visibly, but surely internally and pityingly. But perhaps we are not impartial since we make floors and nothing but floors, save the appliances to keep floors in order. We publish a book of designs, a circular on the care of floors, and other literature on this subject. These are sent free for the asking.

**WHAT IS
X-ODE
INHALER?**

X-ODE is a product of electricity. It forms on asbestos while being electrically treated in a solution. This asbestos is put up in a glass vial. When the cork of the vial is removed and the air comes in contact with the asbestos, it emits from the inhaler a soothing gaseous substance which will penetrate any part of the body. When inhaled through the nose or mouth it penetrates every nook and crevice of the mucous surfaces, kills the germ that causes the disease, and gives the tissues a healthy condition, thus effecting a permanent cure. It is unlike snuff, drugs or medicine. X-ODE penetrates parts that it would be impossible for drugs or medicines to do.

Cатары, Астма, Hay Fever, Coughs, Headache, Bronchitis, La Grippe, etc., yield to its influence with marvellous rapidity.

His inhaler lasts from one to three years.

Trial size inhaler, 15c. Large size inhaler, \$1. All druggists, or by mail.
